

# Seneca East Cross Country

## Alumni Newsletter Pre-Season 2021

### “PEOPLE”

Hello Seneca East Cross Country Alumni:

The cross country teams would like to welcome you to the 2021 cross country season! The season that lies ahead will certainly be a year full of fun and excitement as the teams look to carry on the tradition and standard of excellence set by you, the alumni. This season numbers continue to stay high as there are right around 50 boys and girls in grades 7-12. This year's boys team looks to have a strong group of runners with a nice mix of experience and youth. The girls have a couple of top-end runners, but will need to work to grow quality depth on the back-end to help fill out the team. Both the boys and girls junior high teams are loaded with talent and have a bright future ahead of them as they are expected to place well throughout the year.

We apologize that there is not an alumni event this year, but we do plan to return to hosting it once again next year. The cross country program is preparing to host the 9<sup>th</sup> running of “The” Tiger Classic, our home meet, on August 28<sup>th</sup>. It has become a premiere event in the state, and it receives statewide attention as many top teams in the state travel to Seneca East the first Saturday of every season. In addition to this, Seneca East will be hosting its second rendition of Saturday Night Lights. This year will be themed with Patriotism as it is going to be on 9-11-21, and is titled Seneca East's Stars, Stripes, & Lights. The meet will be one-of-a-kind, as a giant USA flag, a B-17 flyover, and fireworks will all be taking place! This is also the 9<sup>th</sup> year in a row Seneca East will be hosting the league championship meet! This provides the athletes with a great chance to see how much they improved from week one to the league meet as they get to run the same course!

Below is our 2021 schedule! Thank you all for the continued support! We look forward to representing SECC in a positive manner and seeing all of you at the course!
